

SIZE CHART

1 MEASURING
Start measuring above the ear and circle around. The tape measure should be placed about two centimeters above the eyebrows.

2 FIND YOUR SIZE
Check your measurements with the below helmet size chart. If your measurement are between two sizes, opting for the larger size is recommended.

EPS

HOW EPS WORKS

EPS (Expanded Polystyrene) is the inner layer of the helmet responsible of absorbing the impact. The size located in the same EPS section can be changed by replacing the lining (sold as spare part).
