Repeat  
Both Sides

Ensure radiator guard  
securely hooks over the  
top lip of the radiator

### ESSENTIAL CHECKS

It is recommended that periodic inspections are made to ensure that dirt and debris have not become trapped between the guard and the radiator/oil cooler. Such dirt and debris would reduce the cooling efficiency of the radiator/oil cooler.

It is recommended that periodic inspections are made to ensure that all fixings are fully tightened.

Reverse Stages

15 - 1
