Caution

Run wires neatly down the channel in both parts ensuring they do not get trapped or squashed

Caution

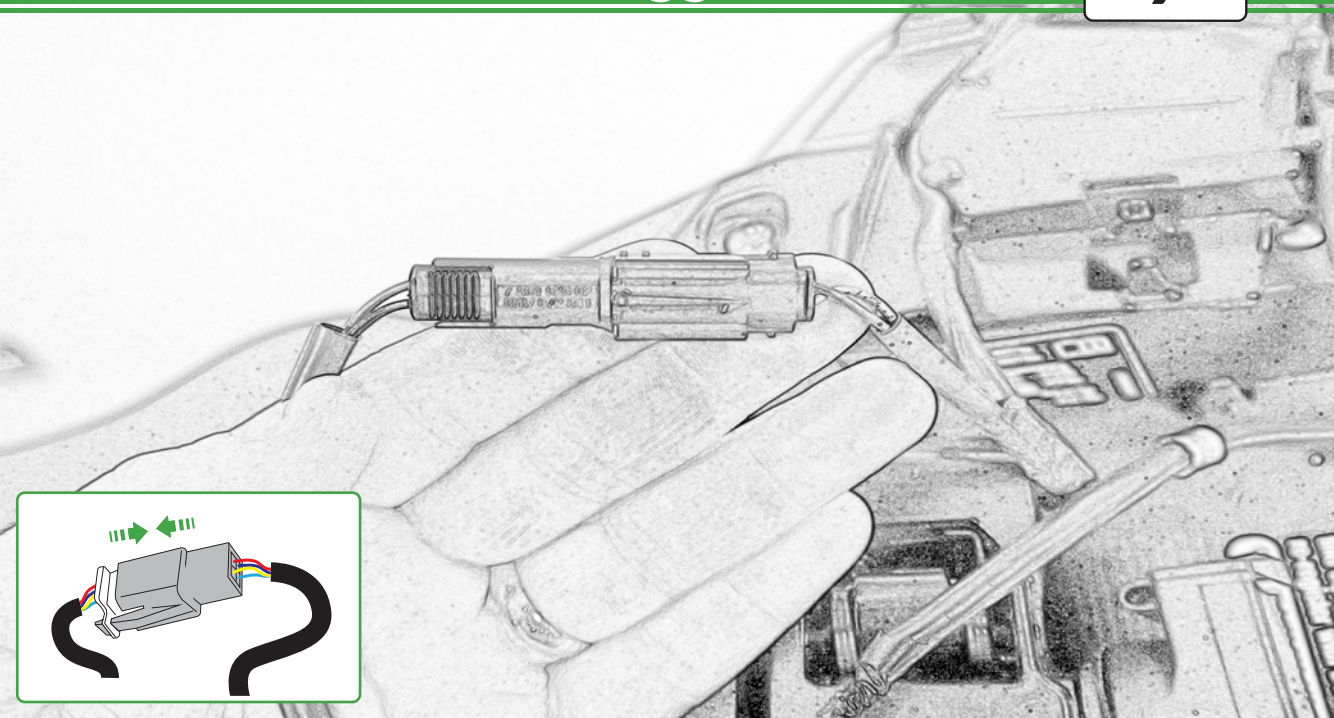

Run wires neatly down the channel in both parts ensuring they do not get trapped or squashed

 2023+ bikes will be wired
Black to Red and Red to Black

Reverse Stages

4 - 1

ESSENTIAL CHECKS

After installation of your tail tidy ensure that the licence plate does not contact the rear tyre when suspension is fully compressed.

Ensure all electrics including indicators, tail light, brake light and licence plate light lights are working correctly before riding the motorcycle.

It is recommended that periodic inspections are made to ensure that all fixings are fully tightend.
