Locate round holes amongst hexagons.

Push Rubber Spacer through from the back of the guard so Hexagonal shape sits on the front face

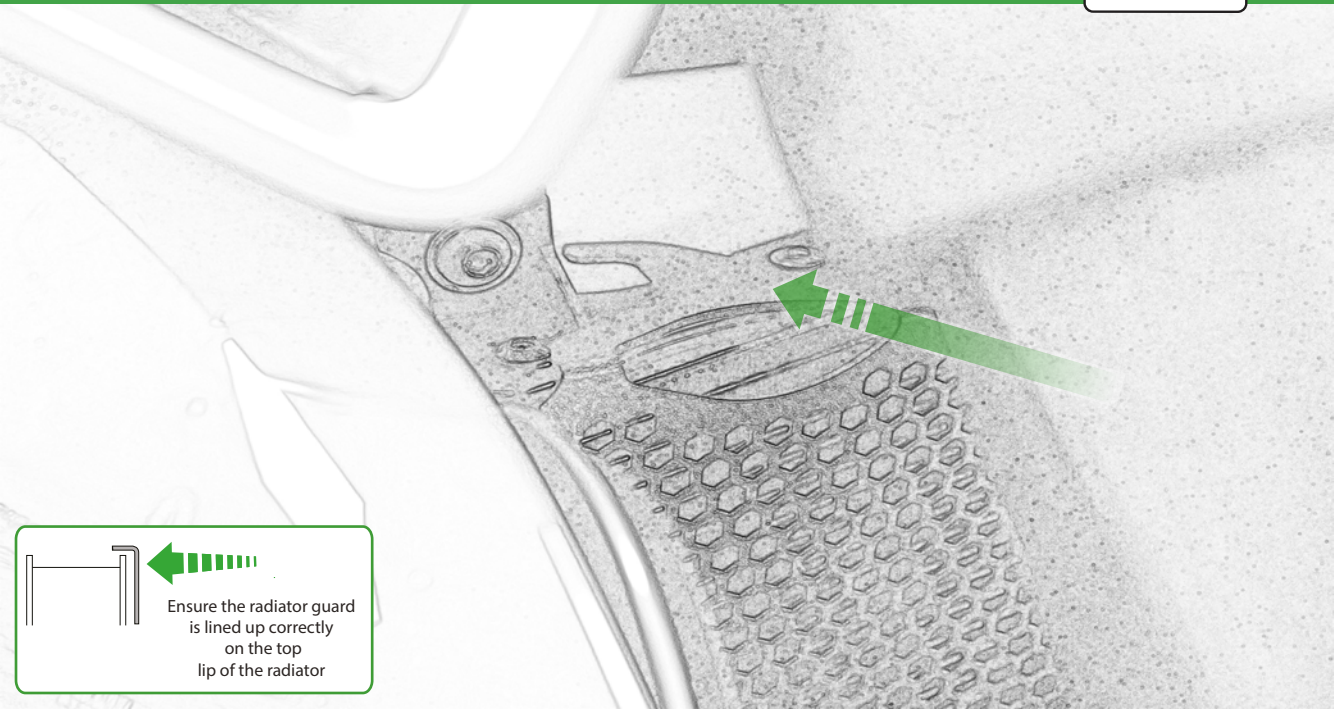

Ensure the radiator guard is lined up correctly on the top lip of the radiator

The inset diagram shows a cross-section of the radiator guard and the radiator. A green arrow points from the radiator guard towards the radiator, indicating the correct alignment of the guard's top lip with the radiator's top edge.

OEM PART

ESSENTIAL CHECKS

It is recommended that periodic inspections are made to ensure that dirt and debris have not become trapped between the guard and the radiator/oil cooler. Such dirt and debris would reduce the cooling efficiency of the radiator/oil cooler.

It is recommended that periodic inspections are made to ensure that all fixings are fully tightened.
